

SUGGESTED CORPS PRAYER FOR RAEME

Our Director, who art in Russell, hallowed by thy Corps, Thy draft estimates come, thy technical control and command be done in units as it sometimes is in EME Groups and MEA. Give us this day our repair parts and manning and forgive us our 500 productive manhours per man per year, our bodgies and underspends as we forgive DORG, DGSUP, DTPT and equipment operators who abuse us. Lead us not into EDP and trade repair and deliver-us from MODERNISE, Grades of Repair and 'State of the Art Buys'. For thine is the Directorate, the technical control, and my posting here, for two years and hopefully only one.

ANON....
